

Diamond Class

Our topic for this term is 'Farm to Fork.' This half term we have focused on thinking about what food comes from animals or plants. We have also been doing lots of activities based on the Harvest festival. We have had such a busy and exciting start to the year and we have learnt much! Here are just a few snapshots of things we have enjoyed doing so far...

We made clay faces. We carefully followed our designs.

We enjoyed making banana bread.

We know that you need a balanced diet and exercise to be healthy. We have enjoyed doing gymnastics with Mr Noach on Thursday mornings. We have practised balancing, jumping and rolling. We loved using the climbing apparatus.

We have been doing lot of activities based on the Harvest Festival. We have been doing observational drawings of fruit and vegetables and writing Harvest poems and prayers.

We have started to look at the story of 'Lila and the Secret of Rain.' We have been talking about what we like about the story, the main characters and the setting. We have been doing some drama based on the story and enjoyed creating story maps.

We are very excited about our new Design and Technology project. We are going to be creating Mod roc farm animals. This is us doing our design with a partner.

We are looking forward to displaying the finished products around the school. Look out for them!

In numeracy we have been doing lots of new tricky challenges! We have been looking at the greater than and less than symbols, partitioning numbers into tens and units and finding the inverse number sentences. We have really enjoyed doing some problem solving activities in the ICT suite. We have had to instruct a programmable toy to move and turn to get to a target. We have also used the coding program 'Purple Mash' to instruct different characters to move and turn in different directions.

Wow! What a busy start to the term!
