

Monday Numeracy-Independent work.

Use the graph to answer the following questions.
This time the horizontal axis is representing the number of people. The vertical axis is representing the flavour of the crisps.

1. What flavour crisp is the most popular?
2. What flavour crisp is the least popular?
3. How many people preferred Prawn Cocktail?

4. How many more people preferred smokey bacon compared to ready salted?

5. How many people either liked beef & onion or salt & vinegar?

6. What flavour of crisps earned 6 votes?

7. How many people took part in the survey?

8. How many more people preferred prawn cocktail compared to salt & vinegar?

9. 4 more people decided to vote and they said they preferred prawn cocktail can you add this information to the bar graph?

10. 5 people decided they preferred Worcester sauce flavoured crisps. Can you add this information to the bar graph?
