## Knowledge Organiser - Year 1

**Focus author:**  
**Steve Antony**

### Geography – a contrasting locality: Australia

**Capital:** Canberra

**Population:** over 25 million

**Area:** over 7,500,000 square kilometres, similar to USA

90% of Australians live near the coast

**Oceans:** It is surrounded by the Indian and Pacific Oceans

**Organisation:** It comprises 6 states and 2 territories.

**Geographical features:** Great Barrier Reef, Uluru, Sydney Harbour

### History – A Prominent Person from the Past

#### Henry VIII

Henry lived 1491 – 1547.

His father was King Henry VII.

He was not the eldest son but his older brother Arthur died so he became king in 1509 on the death of his father.

He is famous for having 6 wives – Catherine of Aragon, Ann Boleyn, Jane Seymour, Ann of Cleves, Catherine Howard and Catherine Parr.

He founded the Church of England so that he could divorce his first wife.

His 3 surviving children all became kings and queens after him: Edward VI, Mary I and Elizabeth I.

### Art: **sculpture**

**Sculpture:** the act of making 3D art by shaping materials (by carving, moulding or assembling).

**Statue:** a figure of a person or animal.

### Design and Technology: **textiles**

**Types of stitch:** running stitch used for joining, cross stitch used for decorating

**Embellish:** apply decoration

### Science – Plants

Leaves use the light of the sun and water to make energy

Stems support the plant.

Roots anchor the plant in the soil and take up water.

Flowers attract insects to pollinate them. They are where the seeds form.

Evergreen: a plant that keeps its leaves in winter.

Deciduous: a plant that loses its leaves in winter

### The Human Body

Skeleton: support the body and protect the organs

Heart: pumps blood round the body

Lungs: take in oxygen

Brain: controls essential organs, thoughts and memory

### Computing

#### Email

This will be accessed through DBPrimary

#### Coding

Algorithm – a clear set of sequenced instructions given to make something happen.

Debugging – identifying and removing errors.

#### E-safety

- Don't go online without adult permission.
- Tell an adult if something upsets you.
- Keep personal information and passwords secure.
- Be polite to other people online.
- Friends are real people you know.
